

The Visimetrics range of DVRs carries a 3 year warranty. This warranty is valid only if the product is used in conjunction with an Uninterruptible Power Supply (UPS) supplied by, or approved for use by Visimetrics. Please contact us if you would like further information about our warranty or would like a copy of the relevant Technical Support Bulletin.

In cases where the UPS has not been supplied by Visimetrics, please use this form to confirm the make and capacity of the third party UPS in use. This will enable us to update our records and ensure that the 3 year warranty can still be applied.

***We would be grateful if you could provide the following information within one month of delivery.***
